EMMANUEL TAKAWENGWA

IT MANAGEMENT | ICT SERVICE DELIVERY | SYSTEMS & SECURITY

Harare, Zimbabwe | +263 78 387 2345 | takaengwa@gmail.com | linkedin.com/in/emmanuel-takawengwa-9a0770124

PROFESSIONAL PROFILE

IT professional with 5+ years of experience across ICT service delivery, infrastructure support, business systems implementation and operational data systems. Holds an MSc in Data Science and Informatics, a BSc in Computer Science and ITIL Foundation (Version 5). Experienced in ITIL-aligned incident and request management, Windows/Linux environments, Active Directory and access administration, LAN/WAN support, security controls, backups, documentation, vendor coordination and end-user capability building. Combines operational ICT support with a systems-improvement mindset, including requirements definition, testing, deployment support and data pipeline optimisation.

CORE COMPETENCIES

ICT service management (ITIL) • Incident/request handling and escalation • ICT operations and infrastructure support • Windows, Windows Server and Linux • Active Directory and access administration • LAN/WAN, TCP/IP, DNS and DHCP • Endpoint protection, patching and backups • Backup/restore testing and recovery documentation • Systems implementation and user acceptance testing • Requirements and technical documentation • Vendor/licensing coordination • Python, SQL and process automation • Data protection awareness • User training and junior staff mentoring

PROFESSIONAL EXPERIENCE

Senior ICT Officer | Biomedical Research and Training Institute — 2021–Present

- Provide remote and onsite support for Windows workstations, Microsoft Office/Microsoft 365, logins, printing and core applications; log, prioritise and escalate incidents using ITIL-aligned practices.
- Create, maintain and deactivate user accounts and permissions across Active Directory, email and core application systems; support permissions profiling and access monitoring.
- Support desktop, server, hardware, software and network services, including LAN/WAN connectivity, scheduled upgrades, patching and preventive maintenance.
- Apply IT policies and security practices, including endpoint protection, strong authentication and user cybersecurity awareness.
- Maintain records of configurations, backups, restore testing and troubleshooting procedures; coordinate licensing and vendor support to sustain service availability.
- Train end users and mentor junior ICT staff, supporting consistent service delivery and adoption of business systems.
- Work with operational teams to translate needs into system changes, business rules and data structures; support testing, user acceptance, documentation and deployment.

IT Specialist | PortableCloud Zimbabwe — 2020–2021

- Supported client business applications, connectivity and workflows; collaborated with technical teams to diagnose and resolve incidents.
- Assisted with requirements gathering, configuration, implementation testing and deployment, maintaining technical and operational documentation.
- Trained users on system operation and good practice, helping improve first-time resolution and reduce repeat support requests.

IT Officer | OK Zimbabwe — 2018–2019

- Provided helpdesk support for ICT systems, hardware, software and connectivity in a large retail environment.
- Troubleshot Windows desktop, printing, login and application issues, restoring service and escalating where required.
- Developed small automation tools to reduce repetitive support tasks and improve operational efficiency.

SELECTED SYSTEMS & DATA PROJECTS

Data pipeline optimisation: Rebuilt an operational ETL workflow, reducing processing time by up to 60%.

Operational systems implementation: Defined functional requirements, business rules and data structures; supported testing, user acceptance, documentation, training and deployment.

Field data monitoring and integration: Defined validation rules and integration steps and supported testing of automated reporting.

EDUCATION

- MSc, Data Science and Informatics — University of Zimbabwe, 2023
- BSc, Computer Science — University of Zimbabwe, 2019

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ITIL Foundation (Version 5) — PeopleCert, 2026
- Python 3 Programming Specialization — University of Michigan, 2021
- Information Security: Context and Introduction — University of London, 2021
- Learning Linux for LFCA Certification — LearnQuest, 2021
- Additional training: Managing Linux Systems; Securing Linux Systems
- Clean Class 4 (manual) driver's licence
